PATENT IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

a textbook having at least one machine recognizable feature;

a feature recognition unit having associated therewith a

means for recognizing said machine recognizable feature and a

means for transmitting a coded signal in response to the

recognition of said machine recognizable feature;

an intelligent controller having associated therewith a means for accessing said programming material in response to receiving said coded signal; and

a display unit for presenting said programming material.

190. A system as defined in claim 186 wherein said "information superhighway" data link comprises an integrated service digital network (ISDN).

192. A system as defined in claim 186 wherein said "information superhighway" data link comprises a cable television (CATV) line.

{EDITED VERSION OF THE AMENDED CLAIM}

168. A system for displaying programming <u>material</u> to a user, the system comprising:

a textbook having at least one machine recognizable feature;

PATENT IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

a feature recognition unit having associated therewith a means for recognizing said <u>machine recognizable</u> feature and a means for transmitting a coded signal in response to the recognition of said <u>machine recognizable</u> feature;

an intelligent controller having associated therewith a means for accessing said programming material in response to receiving said coded signal; and

a display unit for presenting said programming material.

- 190. A system as defined in claim 186 wherein said "information superhighway" data link comprises an <u>integrated service digital</u> network (ISDN) [network].
- 192. A system as defined in claim 186 wherein said "information superhighway" data link comprises a <u>cable television (CATV)</u> line.

REMARKS

The Examiner objected to claims 190 and 192 based on informalities. In addition, the Examiner provisionally rejected claims 168, 176-226, 228, 252-255, and 257-293 under obviousness-type double patenting as being unpatentable over claims 168-221
